

Coalition  
to Promote  
Growth  
in America

June 26, 2025

**The Economic Investment Alliance today released the following statement encouraging final passage of the One Big Beautiful Bill Act which will restore the pro-growth tax policy—100% full expensing:**

“100% full expensing has proven to usher in an era of domestic investment across American communities. Telecommunications companies rapidly installed 5G infrastructure, airlines invested in new fleets and energy companies deployed new technology to make their operations more efficient. Making the policy permanent provides businesses the certainty they need to make long-term investments right here in the U.S.

All Americans benefit from this type of investment and its positive ripple effects, including higher wages and levels of employment. Full expensing also strengthens critical supply chains and makes America more competitive in the global economy.

EIA is eager for Congress to quickly enact the One Big Beautiful Bill to immediately spark U.S. economic growth.”

*The Economic Investment Alliance is a coalition of innovative companies and organizations supporting the permanent extension of full expensing. To learn more, visit <https://investmentalliance.org/>.*
